Kusasira Brighton

Computer Science Student & Software Developer

📍 Kampala, Uganda 🎓 Makerere University (Class of 2030) 💻 github.com/[kusasirabrighton-byte]

✉️ kusasirabrighton@gmail.com

EXECUTIVE SUMMARY

Passionate Computer Science student at Makerere University specializing in software engineering, core algorithmic problem-solving, and modern application development. Focused on leveraging AI-assisted software architecture, developer tooling, and clean code practices to design scalable, user-focused applications.

TECHNICAL SKILLS & COMPETENCIES

Domain	Tools & Technologies
Core Computer Science	Data Structures, Algorithms, Software Engineering Principles, Systems Design
AI & Developer Tools	GitHub Copilot, OpenAI Codex, Git, GitHub Workflows, VS Code
Design & UI Assets	Adobe Suite (Asset Preparation & Wireframing), Responsive UI Design

KEY PROJECTS & SOFTWARE DEVELOPMENT

Smart Campus Resource Portal

Lead Developer

Designed and prototyped a web-based portal to help students locate and reserve academic resources efficiently. Integrated algorithmic search for real-time item availability.

`JavaScript` `HTML/CSS` `Git`

Algorithmic Data Analyzer

Academic Project

Built a performance benchmark application to evaluate sorting and searching algorithms under dynamic memory constraints, analyzing execution time and complexity.

`Python` `Data Structures` `Algorithms`

Academic Focus & Goals: Currently pursuing a Bachelor of Science in Computer Science at Makerere University. Actively seeking software engineering internships, collaborative open-source opportunities, and computational research projects.
